

Hospice of the Sacred Heart

My name is Diane Baldi and I am the Chief Executive Officer of Hospice of the Sacred Heart. During this week, we will be introducing members of our Hospice of the Sacred Heart staff. Hospice cares for patients and their families who are facing the challenges of life limiting illnesses. Physicians, nurses, social workers, counselors, volunteers, clergy as well as the entire office staff assist in caring for patients. Our team makes every effort to help patients and families to identify their physical, emotional, psychological, social and spiritual needs and to respond to those concerns. Although my work involves the overall management of the agency, my ultimate responsibility is to ensure exceptional care to all of our patients, families and caregivers. As CEO of Hospice of the Sacred Heart my promise is that our experienced and compassionate staff will deliver uncompromising care to patients and families as life changes.

Diane Baldi, CHPN

We promise to help as life changes . . .
